

### NOTES

FROM

THE

DESIGNER

As always, a desire for comfort without compromising on fit is at the forefront of our minds when designing the collection. Simple, elevated design that feels comfortable, yet luxurious to wear. Our brand-new launch Reflect is the epitome of this. A new continuity collection where comfort and fit go hand in hand. Sure to be a future classic, Reflect launches in our two core continuity colours, Black and Natural Beige, followed by a beautiful Evening Blue fashion colourway. Alongside our signature shapes we are excited to introduce a debut for Fantasie - an off the cradle Moulded Spacer Bra that is based on our best-selling Rebecca frame and a striking Chemise with secret support. With its second-skin softness and feminine lace detailing Reflect is set to become a sought after Fantasie favourite.

Striking prints are a must have for a complete Fantasie season. Introducing Antonia, in a stunning denim blue leopard print. Beautiful Lucia has a romantic update for AW22 and has been reimagined into sumptuous black and red tones. Olivia also heralds a return in a striking monochrome. Our sustainability journey continues as we welcome back Adelle, and this season she is printed! This collection not only looks beautiful, but also has an exciting story to tell. The pieces are crafted from recycled fabric, containing at least 50% post-consumer recycled materials. To not only aim to reduce the amount of plastic waste but also to reduce the energy consumption required to make the garments.

No Fantasie season would be complete without your favourites. Cast your eyes over great new shades in Fusion, Envisage and Rebecca Essentials. Aubree also returns with a new Brazilian brief shape. While the Ana and Illusion seasonal colours co-ordinate back perfectly with the Lace Ease and Smoothease offerings. Be sure to look out for these matching co-ordinates to complete your perfect lingerie look which are featured on each of the collection pages.

### THE JOY OF THE PERFECT FIT

AW22 COLLECTION

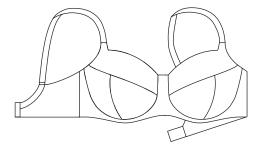

## BRA SHAPES EXPLAINED

When perfect fit and support is everything, we know that it can take time to find the right bra shape for you. We at Fantasie Lingerie have got you covered, because you can always depend on us to design our collections with you in mind. By ensuring there's not only one bra to suit every shape, but also every occasion and outfit that comes with it, this guide is designed to help you find just that.

### SIDE SUPPORT

The UW Side Support Bra is one of Fantasie's best-loved shapes and is available in most collections. Perfect for the fuller busted woman, these bras have a four piece cup rather than a three piece cup you would find in many other styles. The extra panel gives forward projection by increasing the support and strength of the bra at the edge of the cup, guiding your breast forward rather than to the side. For this reason they are great if your breasts are fuller at the side.

The easiest way to tell if you have a Side Support Bra is to look at seams on the inside of the cup. A Side Support Bra has four sections, with the outermost section being the one offering extra support. Other bras will have two or three sections, and a moulded bra will be just one. And of course, Fantasie's UW Side Support Bras still have the same great features as our other bra styles, like powernet wings to ensure the bra won't ride up your back and wide underwiring for comfort and support.

STANDARD 3 PANEL BRA

FANTASIE 4 PANEL SIDE SUPPORT BRA

### DID YOU KNOW?

A great test to check whether you would benefit from an UW Side Support Bra is to reach your arms out in front of you and move them like you are driving a car. If you feel any rubbing at the side of your arms, a side support style could be just what you need.

### MOULDED

A moulded bra will give you a smooth silhouette under clothing with seam free cups.

Our Fantasie moulds concentrate on offering support without adding volume for a natural shape.

Our moulded bra frames differ slightly in their features, but work to achieve the same benefits overall.

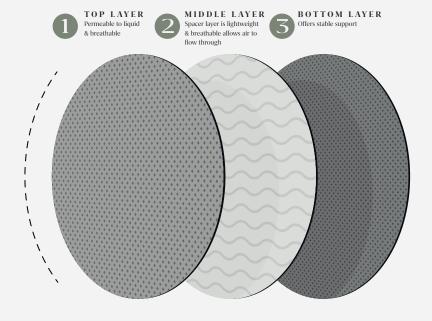

### WHAT IS A MOULDED SPACER BRA?

Spacer Bras are a lightweight alternative to foam moulds, and the difference lies within the fabric. The spacer fabric which is used to create the cups is created differently to regular foam, as the purpose is for it to be lightweight and breathable.

### CONSTRUCTION OF A SPACER CUP

Spacer fabric is a 3D knitted fabric, constructed of three layers and joined together with a spacer yarn. It's so thin and lightweight, it moulds really well and creates a great shape too.

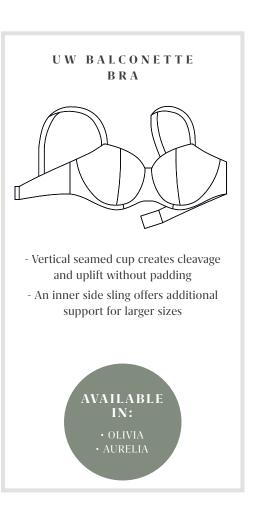

### MUST-HAVES

Our must-have styles are a selection of Fantasie favourites that can be added to your lingerie drawer no matter what the occasion. They each offer something a little different, from their coverage levels to their shape, but the fit they provide is always second to none. All bras feature seamed cups for shaping, powernet wings to provide anchorage and control around the torso, and hook and eye closures for an adjustable fit and ease of dressing.

### UW PADDED HALF CUP BRA - Foam cups for rounded shape and support - Half cup offers less coverage and flattering neckline - Special cup construction offers uplift AVAILABLE IN:

### MERCHANDISING

When it comes to colours and prints, make the most of what Fantasie Lingerie has to offer this season. We always plan the release dates of our seasonal collections with you, the retailer, in mind so you can show Fantasie Lingerie off to its full potential.

## THIS SEASON'S HIGHLIGHTS

With so many new developments in Fantasie
Lingerie this season, it can be difficult to
select only the most exciting of them. This
season we cast a spotlight on two new
collections, Reflect and Antonia, as well as one
of your well known favourites, Aubree, which
continues to go from strength to strength with
a new style addition for AW22.

### WELCOMING ANTONIA

With animal prints proving ever popular, we bring you Fantasie's take on the much-loved design trend with all-new Antonia. Featuring a tonal denim blue leopard print, with Swiss-designed overprinted embroidery, expect great uplift and forward projection from our best-selling UW Side Support Bra. Complete the look with a either the matching Brief or Brazilian.

### AN UPDATE ON AUBREE

A Fantasie favourite amongst many, with Aubree's ever growing popularity, for AW22 we've added a new style to the collection - a Brazilian. The Brazilian will offer an equal amount of coverage in the front, as per the collection's standard mid rise brief shape, but the difference will be found in the back. The amount of fabric used at the back is reduced, which creates the lighter, reduced coverage across the bum.

### INTRODUCING REFLECT

For AW22, we introduce Reflect. A brand new continuity offering for the season, we're championing future classics that are built to last. Featuring a stretch lace with soft handle fabrics, elegant styling meets everyday wear with Reflect, and is available in Black, Natural Beige and a beautiful Evening Blue fashion colourway.

Alongside our signature side support frame, we're excited to debut two new shapes within this new collection. Based on our best-selling Rebecca UW Moulded Spacer Bra, we're launching an off the cradle version for Reflect, which uses the same cup shape and fabrication as Rebecca, but sees the cradle at the front, beneath the cups, removed for a lighter look. We've also designed a new shape Chemise, which features hidden inner bust support for shaping and uplift.

### **ENVISAGE**

As we begin the new season, we welcome the return of Envisage. Crafted from a stretch Jacquard lace, that features a subtle animal print design, Envisage feels sumptuously soft against the skin. Available for AW22 in core colourway Natural Beige and a rich toned Mulberry, maximise your lingerie wardrobe by matching any of the featured bra styles with the Smoothease Briefs.

# **AUBREE**

For AW22, we warmly welcome back Aubree. A Fantasie favourite amongst many, all styles feature a two tone-lace, and we just love the contrast of the silver accents upon black, in this season's dreamy Night Sky colourway. The collection is going from strength to strength too with a new style addition. With the new Brazilian shape, you'll be able to enjoy all the beauty of Aubree's luxe design, but with a lighter, reduced level of coverage.

# FANTASIE'S DIGITAL HUB

More than ever, we know how important it is that you have the tools you need to enhance your online and social media presence.

Here at Fantasie we've built a Digital Asset Hub, Swivle, which is designed to help you do exactly that.

Every season on Swivle you will be able to access all of our product images, videos, readymade assets for your social channels and even web banners for your website and emails. We also offer special themed assets for key occasions in the year as well as fitting assets.

Swivle is currently available across 8 countries, and to get started all you need to do is follow one of the QR codes above, which are labelled by country, to explore your personalised Digital Asset Hub. Please use the password <u>wacoal</u> to access all pages.

If you are new to Swivle, you'll also find a how-to video to guide you on using the hub, as well as helpful training guides for social, website, SEO and paid social. If you have any queries, or to receive the latest information on Swivle, please speak to your Sales Rep.

# QR CODES

To use the QR codes place your camera over the selected square, wait for a link to show and select it. You will then be taken to your chosen country's Digital Asset Hub.

For the best user experience, please scan the QR codes using an iPad or a Tablet.

# OUR POS

Point of sale pieces are a great way to bring attention to new collections in your store.

This season, to support you, our retail partners, we'll be sending out a selection of showcards and banners as pictured below. All POS items will be sent out automatically, collection at a time, and will arrive with the product ordered on the month of launch.

In order to receive any of our seasonal POS items you must order 10+ units of the key style as per the picture and style code below. For example, the Fusion showcard features FL3091 and matching co-ordinate FL3095 but the key style piece is the FL3091 Bra, which would require a minimum order of 10 pieces to receive the POS.
